

**WEBSTER FIVE'S WEB OF CARING TO MAKE A DIFFERENCE PROGRAM
DONATES \$5,000 TO TRI-VALLEY, INC.**

The funds will support the Money Management Program of Tri-Valley, Inc.

WEBSTER, MA – August 25, 2011 – The Webster Five Foundation, as part of the *Web of Caring to Make a Difference* Program, announced today that it will donate \$5,000 to the Money Management Program of Tri-Valley, Inc., a Dudley-based organization that provides financial management assistance to low-income elders in South Central Massachusetts.

Webster Five's *Web of Caring to Make a Difference* Program reinforces the Bank's long-term initiative to give back to the community by supporting local organizations that are making a difference in the community. The funds provided to Tri-Valley, Inc., will help support the organization's Money Management Program, which aids low-income elders who have vision problems and/or physical or mental disabilities that keep them from reading or writing clearly, paying bills, or organizing their finances. The program's mission is to help elders in the community, who suffer from these disabilities, to maintain their independence and home environment. Tri-Valley, Inc., and the Money Management Program have a history of excellence and growth in the community through their social services and volunteer work.

"The generous donation made by the Webster Five Foundation is greatly appreciated by everyone in our organization. We are incredibly grateful that they have contributed to the assistance of individuals in need, and are helping us live out our mission of reaching excellence and growth through service in our community," said Program Director Jayne G. Cacciapuoti.

Richard T. Leahy, President and Chief Executive Officer of Webster Five Cents Savings Bank, commented, "We are proud to support the Money Management Program of Tri-Valley, Inc., in its mission to help elders and disabled individuals maintain their independence and home environment. We fully support their mission of excellence and development."
