

**THE WEBSTER FIVE CENTS SAVINGS BANK DONATES \$2,000
TO THE RAINBOW CHILD DEVELOPMENT CENTER**

The funds will support Rainbow's preschool program.

WEBSTER, MA – September 12, 2011 – The Webster Five Foundation, as part of the *Web of Caring to Make a Difference* Program, announced today that it will donate \$2,000 to the Rainbow Child Development Center. A Worcester-based organization, Rainbow serves as an open education, language-based program that supports children's growth in all areas of development. The *Web of Caring to Make a Difference* Program reinforces Webster Five's long-term initiative to give back to the community by supporting local organizations that are making a difference in the community. All donated funds will help to support the social services that Rainbow provides to low-income children in their preschool program.

The Rainbow Child Development Center offers several programs that are staffed by teachers, therapists, volunteers, and interns. Rainbow's Preschool Program serves 64 children from the community and offers an environment that encourages positivity and growth and, in turn, ensures academic success.

The Rainbow Child Development Center offers a Social Service Program that provides a wide array of therapeutic services for the children enrolled in the program. Speech and language therapy are offered, and each child diagnosed with speech and language delays has two 30-minute appointments with a speech therapist every week. All children in the program receive evaluations on a regular basis to monitor their individual growth and development. "Webster Five Foundation's generous donation will help immensely in our mission to support the social services that our programs provide to children and families in need. We are extremely appreciative of their support," said Program Director Linda Mayuski.

Richard T. Leahy, President and Chief Executive Officer of Webster Five Cents Savings Bank, commented, "We are proud to support the Rainbow Child Development Center in their efforts to enhance the lives of children in our community."
